Grow your own

The 'Grow your own' section introduces an extra level before reaching the information as we have to chose among 9 crops before getting some results.

Usability testing needed!

'Grow your own' selected from the home menu, no crop selected yet

Raising chickens

Solar panel

Saving water

Grow your own

Beans Carrots Cucumbers Peas Potatoes Pumpkins

General advice

- if you're a beginner, start with veg plants rather than sowing seeds
- successful gardens need at least 5 hours of full sun a day
- if your garden is small, reduce the distances given on seeds packets
- use different spaces: walls for climbers, shed roof for squash, pots, hanging baskets, tubs or strawbales

Grow your own

Pumpkins

Sow in: J F M A M J J A S O N D

Harvest in: J F M A M J J A S O N D

Good to know:

- will need a lot of space
- less heavy types can grow on a shed's roof; plant in the ground and guide the main stem to reach the roof then let it expand there
